A tough memo pad that suits any time and place

You may have come into contact with this sort of covering and paper before. The truth is, this paper is used for dry cleaning tags. The same wash-proof paper that you can wash with your shirts that won't tear up has been remade into a rough and tough memo pad.

It has gentle curves on both sides that are easy to get used to holding right away. It is also flexible so you can put it in the back pocket of your jeans. We paid thorough attention to making it possible to be rough with it while carrying it.

The paper will not tear even if you put it into your pocket inadvertently and wash it, and the things you wrote down will remain unchanged.

You can use it as a notebook for recording things down, or as a memo for ripping pages out of. Its unique characteristics will come out the more you use it. It will become your trusty pal you will want to bring with you everywhere.

- ✓ Amazingly durable - won't break even when wet
- ✓ Easy to hold in hand, with a tight and compact silhouette
- ✓ Flexible enough to easily adapt to the shape of your pocket
- ✓ 100 pages with plenty of volume
- ✓ Easy to tear off pages

A wide range of uses, including taking gardening records

Incredible level of water resistance

Just size for fitting into your jeans pocket
